‘THE GOVERNMENT MUST ACT NOW TO MAKE OUR SCHOOLS SAFER’... See more

STATEMENT

We express our deep sadness and concern over the tragic incident at San Jose National High School in Tacloban City, which resulted in the loss of young lives and injuries to learners.

No parent sends a child to school expecting that child to become a victim of violence. Yet this is not the first time that learners have been harmed either inside our schools or during school activities. With the tragedies that have befallen our learners, including the loss of two student-athletes during a basketball training program, the government must confront the serious gaps in our ability to protect the youth.

Our learners must be protected from radical influences, whether they come from outside the school, from online platforms, or from individuals who take advantage of the vulnerabilities of young people. More importantly, they must be protected from abuse, neglect, and violence within the very institutions entrusted with their welfare.

This tragedy also exposes the failure of the government to recognize the importance of intelligence gathering and identifying threats before lives are lost. We cannot continue reacting only after another child is hurt or killed.

Education is not only about academics. What our children learn, who influences them, and the values they carry with them outside the classroom are deeply intertwined with national security and stability.

The continuing loss of young lives should serve as a wake-up call to this administration. The government must act now to make our schools safer and to better protect our learners.

A classroom turned into a scene of panic.

CCTV footage reportedly captured the moment a Grade 8 student allegedly entered a classroom at Bethel Academy in General Trias, Cavite, and stabbed seven Grade 5 pupils during the first week of classes.

The June 16 attack left seven younger students injured, with two suffering wounds severe enough to require surgery at a larger medical facility. Authorities said the alleged attacker, a female student, was later taken to a mental health facility for evaluation.

The incident shocked parents and teachers across the Philippines, not only because of the number of victims but because it happened inside a classroom, a place where children are expected to be safe.

The case has drawn even greater attention after another school stabbing was reported in Cavite just days later, raising concerns about student violence and campus security as the new school year gets underway.

Investigations into both incidents are ongoing, while schools and education officials work to provide counseling and support to affected students and families.

Investigations into both incidents are ongoing, while schools and education officials work to provide counseling and support to affected students and families.

For many parents, the most disturbing part is not just that it happened, but that it happened in broad daylight, inside a classroom full of children.

Forty shots. No criminal charges.

As the investigation into the deadly shooting at San Jose National High School in Tacloban City continues, one detail is fueling intense debate across the Philippines.

Police have filed three counts of murder, three counts of frustrated murder, and multiple counts of serious physical injuries against the 15-year-old suspect involved in the attack. But no criminal cases were filed against the 14-year-old suspect because Philippine law exempts children aged 15 and below from criminal liability, unless other legal standards are met.

Investigators say both teenagers tested positive for gunpowder residue. Authorities also recovered the firearms allegedly used in the attack. Police later found around 40 spent 9mm shell casings at the scene, all reportedly fired from the pistol allegedly used by the 14-year-old suspect. The .38 revolver carried by the 15-year-old was reportedly fired only once.

The attack left three students dead and 20 others injured.

Among those killed was 15-year-old Boy Scout Chris Lorenz Fabian, who reportedly tried to stop one of the shooters from entering a classroom. Also killed were 15-year-old Joyancee Separa and 14-year-old Ayessa Nicole Dazo.

Investigators have also been examining private messages allegedly exchanged by the two suspects before the attack. According to reports, the conversations suggest the plan may have been discussed in advance, with one suspect appearing particularly interested in how juvenile laws would apply if they were caught.

The 14-year-old suspect is now under the custody of the Department of Social Welfare and Development and is expected to undergo intervention and rehabilitation at a youth facility in Leyte. The 15-year-old is facing criminal proceedings.

The case has reignited a national debate over juvenile justice, accountability, and public safety. For many Filipinos, the hardest question is not only how this tragedy happened, but whether the law should respond differently when a crime is planned, carried out, and leaves multiple families grieving.

Nais ko po sana magbigay ng appreciation sa inyo. Dahil po malaki ang naitutulong niyo sa pag laban sa fake news. Malaking tulong na po ito sa mga kababayan natin.

Ako po ay dating DDS, pero dahil napaka hyper critical analysis mo madami po akong natutunan at dahil sa'yo naging stay informed ako.

Ipagpatuloy niyo lang po para madami pa kaming matutunan.

Alam ko po nakakapagod ang ginagawa mo, pero patuloy lang ako sa pag suporta sayo. At maraming salamat.

Ngayon niyo sabihin na walang mukhang organisadong operasyon para siraan si Kiko Pangilinan.

Iba-ibang account, iisang script: gawing “tagapagtanggol ng kriminal” ang taong may kinalaman sa batas para sa mga bata, kahit ang batas mismo ay hindi nagsasabing walang pananagutan ang menor de edad. Ang sinasabi ng batas: tingnan ang edad, discernment, rehabilitasyon, at due process. Iyan ang diperensya ng hustisya sa paghihiganti. Sa batas, hindi puwedeng ang galit ang judge, ang comment section ang korte, at ang fake photo ang ebidensya.

Kaya delikado itong klase ng propaganda. Kapag hindi na sapat ang kasinungalingan sa caption, gagawan na ng larawan. Kapag hindi na kaya ng argumento, gagamit ng edit, AI, o digital manipulation para magmukhang may nangyari. Tapos kapag na-call out, biglang “meme lang.” Hindi. Kapag ang pekeng materyal ay ginagamit para sirain ang reputasyon, lokohin ang botante, at baluktutin ang public debate, hindi na iyan simpleng biro. Panlilinlang na iyan with political intent.

Jun 24, 2026 09:54:09

Dito kailangan ng mas matibay na batas sa paggamit ng AI at synthetic media: malinaw na labeling, mabilis na takedown, pananagutan ng gumawa at nagpakalat, at mas mabigat na parusa kapag ginamit sa eleksyon, public officials, o isyung pambayan. Protektado ang opinyon. Protektado ang satire. Pero hindi protektado ang pamemeke ng ebidensya para gawing tanga ang publiko.

Kasi kung hahayaan natin ito ngayon, bukas kahit sino puwedeng lagyan ng pekeng yakap, pekeng boses, pekeng video, pekeng “resibo,” tapos sisirain sa harap ng milyong tao bago pa makapagsabi ng totoo.

Demokrasya ito, hindi graphics department ng troll farm.

It is terrifying to witness how violence has been normalized by our own leaders.

Sila mismo ang nagpapasimuno.

We have a Vice President who openly talked about violent fantasies gaya ng pagpugot sa ulo ng
Presidente, at may retaliatory hit plot pa against the First Couple.

This sits alongside the legacy ng past administration na ginawang normal ang killings para lang ma-solve ang drug problem.

Ang dumi na ng political culture dahil sa kanila.

This family influenced their followers na okay lang ang violence at pagpatay. Sumpain at i-threaten ka ba naman ng r*pe o patayan kasama ang pamilya mo kapag hindi ka agree sa opinion nila.

The hatred being fueled from above has completely dismantled our moral compass. Hindi lang tayo morally corrupt, we are facing total moral decay.

CAUTION

Police report that the two students have been victims of bullying since Grade 7.
But beyond bullying, the pattern of school violence is hard to ignore.

Just two weeks into classes, there have already been 3 total violent incidents in schools:

JUNE 22

Robin Padilla. Played Anak ni Baby Ama in the movie.
Sixteen. Prison. Beaten. Dragged to the el*ctric chair. Bzzzzzt! Fried. Like lumpia.

Great drama. Touching stuff. He st*bb*d people because society made him. Critics said: "Robin really gets it: Life as a kid with no way out."

Supposed to be tragic. A warning: Don't do this to kids. But Robin watched himself play the son of a
16-year-old who got zapped and said: "Beautiful story. Let's make kids criminally liable at 10."

Maybe too many fight scenes rattled the brain.

His bill masquerades as tough love. Patriotic. Heroic.
It's none of that. It's lazy. Easy to throw kids in jail.
Hard to raise them.

Takes brains, guts, strategy to fix the world so they don't end up there. He wants the cinematic shortcut: skip the system, roll credits.

Robin's a senator now. Every morning he asks: How do I get Tribune to cover me today? Controversy equals relevance. Mar*juana bill, divorce, criminally liable 10-year-olds.

But is it really Robin you elected? Or the stunt double? Maybe the brain stayed with the guy who got blown up in the background. Robin just kept the scars. He needs to be loud. Shocking. Like Duterte. But shocking without the brains. If outrage fades, he'll pick a hotter taboo.

Ask a 10-year-old where money comes trom, and he might say, "The ATM makes it." We don't let kids vote, let them drive, let them drink Coke after midnight. We don't even let them choose dinner. Ever seen a kid with broccoli? He'll cry.

Who children are today are not who they'll be tomorrow. Punishing them is punishing potential, not crime.

The stuntman could fall from a burning building and still land on smarter policies.

If a 10-year-old can commit a crime, then Robin should let him run for office. Make him senator, too. He'd be smarter, he'd be cheaper; he'd show up to work with his homework done.

If, by Robin's own logic, children are criminally liable at 10, then he has implicitly agreed that these children are full citizens in every

ESTUDYANTE NA NANAKSAK SA GRADE 5 STUDENTS, NAKARARANAS UMANO NG DEPRESYON.

Nabalot ng matinding takot ang unang araw ng pagbabalik eskwela sa isang pribadong eskwelahan sa Sta. Clara, General Trias City, Cavite nitong Martes ng umaga matapos na pitong grade 5 students ang sugatan sa pananaksak ng isang babaeng grade 8 student.

Isinugod ang mga biktima sa Divine Grace Medical Center matapos magtamo ng mga saksak sa likod.

Ayon kay Mayor Luis “JON-JON” Ferrer IV, dalawa sa mga estudyante ang kailangang isailalim sa operasyon.

Sa imbestigasyon, alas otso y media ng umaga nang magulantang ang mga grade 5 students nang walang sabi-sabing pumasok sa classroom ang isang babaeng grade 8 student at walang habas na nanaksak gamit ang kitchen knife.

Galing umano sa kaniyang classroom sa second floor ang suspek at bumaba ito sa frist floor kung saan ang classroom ng mga grade 5 students.

Wala umano sa classroom ang mga guro dahil may nagaganap na meeting

2026-06-24 10:55:32

Wala umano sa classroom ang mga guro dahil may nagaganap na meeting.

Nakasalubong na lamang umano ng isang guro ang suspek hawak ang patalim.

Sinigawan umano ng guro ang suspek na itapon ang patalim at nang itapon ito ay agad nan iyang niyakap ang suspek.

Hindi pa matukoy ang motibo kung bakit ginawa ng suspek ang pananaksak.

Hindi rin umano magkakakilala ang mga biktima at suspek na bagong transfer lamang.

“Wala naman po tayo na find na related sa bullying,related sa mga gangs or groups o away ng mga grupo-grupo po, isolated incident po ito ,all victims po are in stable condition “ sabi ni PLTcol. Bismark Mendoza , hepe ng General Trias City Police.

Nasa pangangalaga na ng mga tauhan ng City Social Welfare and Development Office na sumasailalim sa medical evaluation.

“On the part po ng suspect our city social welfare development officer, nabigyan na rin po siya ng instruction ni Mayor and appropriate interventions are already undertaken “ sabi pa ni Mendoza.

Hello, with all due respect sa lahat ng mga nagcocomment.

Ako po ay isang CICL dati nung minor ako, I won't disclose the case pero sasabihin ko po na dahil sa R.A 9344.

I was rehabilitated, I was given 2nd chance in life. Ngayon proud po ako na isa na akong Registered Criminologist at isang Law Student.

Hindi natin pwede isama ang mga bata sa kulungan kasama ang mga hardened criminals dahil maiimpluwensyahan sila nito. Yun ang layon ng batas mareporma ang mga bata. Nagegets ko sentimyento niyo about heinous crimes pero isipin niyo mas malaking epekto kung miski mga maliliit na krimen ay magkukulong sa bata kasama ng matatanda.

Yun lang sana mas palawakin niyo ang pagintindi sa batas.

"IWAN NIYO NA LANG AKO, HUWAG NIYO NA AKONG DALHIN O BANTAYAN PA. TAKBO NA KAYO."
Chris Lawrence Fabian

Ito ang mga huling salitang binitawan ni Chris Lawrence Fabian matapos niyang piliing protektahan ang iba sa gitna ng panganib. Sa halip na unahin ang sarili, ipinakita niya ang tapang at malasakit sa kapwa.

Sa gitna ng panganib, ipinakita ni Chris ang tunay na tapang at malasakit. Ayon sa mga salaysay, hinarang niya ang pinto upang maprotektahan ang iba nang magkaroon ng insidente ng pamamaril sa isang paaralan sa Tacloban City.
Kahit nasugatan, ang kanyang iniisip ay ang kaligtasan ng iba. Ang kanyang sakripisyo ay magsisilbing paalala na ang tunay na bayani ay yaong handang tumulong kahit nasa panganib ang sariling buhay.
Hindi malilimutan ang kanyang kabayanihan at kabutihan ng puso.

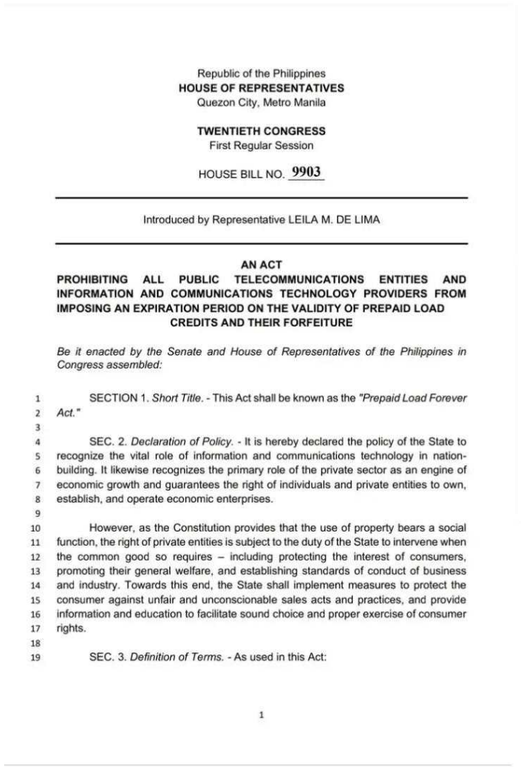
PREPAID LOAD FOREVER ACT, ISINUSULONG

BASAHIN: Mamamayang Liberal Re... See more



Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City, Metro Manila

TWENTIETH CONGRESS
First Regular Session

HOUSE BILL NO. **9903**

Introduced by Representative LEILA M. DE LIMA

AN ACT
PROHIBITING ALL PUBLIC TELECOMMUNICATIONS ENTITIES AND INFORMATION AND COMMUNICATIONS TECHNOLOGY PROVIDERS FROM IMPOSING AN EXPIRATION PERIOD ON THE VALIDITY OF PREPAID LOAD CREDITS AND THEIR FORFEITURE

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. *Short Title.* - This Act shall be known as the *"Prepaid Load Forever Act."*

SEC. 2. *Declaration of Policy.* - It is hereby declared the policy of the State to recognize the vital role of information and communications technology in nation-building. It likewise recognizes the primary role of the private sector as an engine of economic growth and guarantees the right of individuals and private entities to own, establish, and operate economic enterprises.

However, as the Constitution provides that the use of property bears a social function, the right of private entities is subject to the duty of the State to intervene when the common good so requires – including protecting the interest of consumers, promoting their general welfare, and establishing standards of conduct of business and industry. Towards this end, the State shall implement measures to protect the consumer against unfair and unconscionable sales acts and practices, and provide information and education to facilitate sound choice and proper exercise of consumer rights.

Globally, Gen Z is drinking less. In the Philippines, government nutrition data shows teen drinking doubled from 1 million to 2 million between 2021 and 2023. At the same time, older Filipino Gen Z adults are actually drinking less than previous generations. Two trends. Same generation. Moving in opposite directions.

WHAT IS GOREBOX?

EXPLAINER: The online game 'GoreBox' has been temporarily banned by the Cybercrime Investigation and Coordinating Center (CICC) after initial police reports indicated that one of the two minor suspects involved in the fatal shooting incident in Tacloban City, Leyte, on Tuesday, was an "avid player" of the game.

Like most open-ended sandbox games, GoreBox has no fixed storyline or aim, as it relies on an open-world game style that allows players to create, destroy, and manipulate environments, as well as spawn and destroy objects or characters, using in-game weapons, explosives, and other related elements.

More on this "chaotic physics-driven sandbox" in this #explainer story.

Dalawang Sentimo Sa Kalye

There are numerous post online stating that one of the Tacloban shooters is a DDS or a fan of Duterte, and the evidence is derived from the shooter's profile which showed his support for the former president.

If this is true, it reminded me of another school shooting that happened last 2022 in Ateneo whereas a DDS doctor/vlogger infiltrated the University and shot three people that ended up kiling them. That makes two Duterte supporters as school shooters (if the latter is true), and it shows how charismaric figures can influence and embolden the negative qualities that people have, and subsequently convert it to violence.

However, I do think that turning this tragedy into partisan propaganda is idiotic since radicalization can happen to anyone regardless of their political affiliation, it just that the circumstances of the minor coincided with variables that made a perfect situation to be radicalized, there is a deeper issue here and it's not just about a minor being a supporter of a political family.

This situation only proves that the narrative about the existing juvenile law, being ineffective and emboldens criminal behaviour, is false. When the supporters of the amendments argue that the shooters know they cannot be

This situation only proves that the narrative about the existing juvenile law, being ineffective and emboldens criminal behaviour, is false. When the supporters of the amendments argue that the shooters know they cannot be accountable, it is false. because if the shooters really knew the law then they would know that they will be arrested and accountable, and the belief that they will escape accountability probably came from the rhetorics of Duterte vloggers.

How will lowering the age of criminal responsibility resolve violence among the youth? Are we saying that a minor has the same mental faculties and cognitive ability as an adult? Is it the fault of the minor that he/she is surrounded by immoral and ungrounded people, whose belief greatly influenced their child?

BREAKING: The NBI is set to file a human trafficking case against former Cong. Mike Defensor in connection with a KTV bar recently raided in Pasig City, where sexual exploitation was allegedly committed against 54 women victims, according to NBI Director Melvin Matibag.

Matibag said they will file the case on Friday before the Pasig City Prosecutor's office.

"Lumalabas na talagang si Mike Defensor, kasali rito," Matibag said.

The bureau earlier filed charges against the ex-congressman's wife, Julie Defensor, and their son, Miguel Gabriel Defensor, regarding the incident. | via MJ Salcedo, **INQUIRER.net**

A 1080p upscale of the *Okey Sha!* pilot intro using Topaz Labs Starlight 2.5. I began the video with a short comparison preview of the original TV recording and the 1080p remaster before playing the full intro with the studio recording of the show's theme song.

Okey Sha! starred a then 17-year-old Sharon Cuneta in her very first sitcom, alongside Tony Carreon, Ading Fernando, Sylvia La Torre, and Bernardo Bernardo.

The show's theme song and lyrics were composed by my father, Sammy Climaco.

Pag-gamit umano ng AI-Generated Clips sa Bagong Serye na ‘Sigabo’ ni Coco Martin, Usap-usapan

Umani ng iba’t ibang reaksiyon online ang paggamit umano ng AI-generated clips sa bagong serye ni Coco Martin na Sigabo. Maraming netizens ang nakapansin sa ilang eksena na may kakaibang visual effects at detalye, dahilan upang pag-usapan kung bahagi ba ito ng artificial intelligence technology.

May mga naniniwalang malaking tulong ang AI sa pagpapabilis ng produksyon at paglikha ng mga eksenang mahirap gawin sa tradisyunal na paraan. Gayunman, may ilan ding nagpahayag ng pangamba na baka maapektuhan nito ang kalidad at pagiging natural ng mga eksena.

Sa kabila ng mga opinyon, patuloy na sinusubaybayan ng mga manonood ang Sigabo, habang hinihintay ang opisyal na pahayag ng produksyon kaugnay sa usapin. Sa ngayon, nananatiling mainit na paksa sa social media ang paggamit ng AI sa telebisyon at pelikula.

Hindi porket walang "criminal liability" ay exempted sa consequence.

Kailangan talaga ng instruction manual sa mga DDS para sa mga susunod na batas. Kumbaga isang guide sa kanila parang instruction sa cup noodles.

‘Salamat sa tanan ‘nak, sa kamaayo mo, sa tabang mo.’

Labis ang hinagpis ni Rovelyn Baterbonia sa huling pagkakataong makita ang labi ng kanyang anak na si Rene Clert Baterbonia sa Talacogon Memorial Park.

Nagpasalamat siya sa kabutihan at tulong ni Rene Clert sa kanilang pamilya.

Hawak ang jersey ni Rene Clert, hanap pa rin ni Ginang Rovelyn ang tunay na kasagutan sa pagkamatay nito.

“Ayaw sila patulga bisan di sila motug-an og tinuod, gikan sa coach, staff, ayaw gayud ('Wag mo silang patulugin kung hindi sila nagsasabi ng totoo, mula sa coach, staff.),” ani Rovelyn.

“Gisayangan ka lang nila. Grabe pangga ko kanimo. Bisan sa kalisod wala tamo biyae (Sinayang ka lang nila. Grabe ang pagmamahal ko sa’yo. Kahit sa hirap, hindi ko kayo iniwan),” aniya. | via Hernel Tocmo

to expedite marking of documents

By NEIL JAYSON SERVALLOS and DAPHNE GALVEZ

The prosecutors in the impeachment trial of Vice President Sara Duterte are scrambling to expedite the marking of thousands of documentary exhibits linked to her alleged misuse of confidential funds, as having to work on "really voluminous" documents is compounding the task and threatening to derail the start of her impeachment trial on July 6.

At a press briefing yesterday, lead prosecutor Rep. Gerville Luistro and Rep. Joel Chua admitted that their current pace is too slow to meet tomorrow's deadline for the pre-trial marking of evidence.

"I wish to share that indeed, the documents for confidential fund are really voluminous," Luistro said.

Currently, four teams are facilitating the marking process – three dedicated to confidential funds and

Marcos open to lowering criminal liability age to 12
By ALEXIS ROMERO
With the nation in shock over the deadly school shooting in Tacloban City involving school children, President Marcos is open to lowering the age of criminal liability and restricting minors' access to violent online games, Malacañang said yesterday.
The debates over whether to lower the age of criminal liability – currently at 15 – were revived after two Grade 9 boys opened fire at schoolmates at the San Jose National High School, killing three students and wounding 20 others.
Initial police investigation revealed that the two shooters, aged 13 and 14, were heavily influenced by online content, one of them even posting violent videos before the shooting took place.
Asked during a media briefing whether the administration is amenable to lowering the age of criminal liability, Palace press officer Claire Castro said: "There has been no discussion yet with regard to the age, but the President will review any version transmitted by Congress."
"But based on what we know, yes, the President is open to lowering the age [of criminal liability]," she added.
The Juvenile Justice and Welfare Act of 2006 states that a child 15 years old or younger at the time of the commission of the offense shall be exempt from criminal liability. Instead the child would be subjected to intervention

PNP: Shooters planned school attack for over a month
By EMMANUEL TUPAS
The two student suspects in the shooting at San Jose National High School in Tacloban City had allegedly been planning the attack for more than a month, authorities uncovered.
Investigators said screenshots of online conversations between the suspects and interviews conducted after their arrest showed that the two minors had been planning the attack as early as May 1.
Police said the suspects were also aware that they were about to commit a serious crime, but appeared unconcerned because they believed they would be released quickly under the Juvenile Justice and Welfare Act.
"They could release us at 18-21 if we change inside," one of the suspects reportedly said in a Facebook Messenger conversation.

THE 15TH SP PAYS TRIBUTE TO ILONGGO ATHLETE BOBET BATERBONIA

Paagi sa amon pag-isa, ginpabutyag sang Sangguniang Panlalawigan kag sang Probinsiya sang Iloilo ang amon pagpakig-unong kag mga pangamuyo para sa pamilya Baterbonia.

Though raised in Agusan del Sur, Bobet's roots trace back to Barangay Santo Domingo, Barotac Viejo, where generations of the Baterbonia family remain. At just 18, he had already led Davao Region to its first Palarong Pambansa secondary boys' basketball title, earned MVP honors, secured a place with the Ateneo Blue Eagles, and helped the Philippines win gold in the ASEAN School Games.

His promising journey was cut short, but not the legacy he leaves behind.

More than the medals and accolades, Bobet will be remembered as a young Ilonggo whose discipline, excellence, and love for the game brought pride to his family, his community, and the nation. Sa pihak sang iya kabuhi nga madali natapos, ang inspirasyon nga iya ginbilin magapadayon nga magahatag sang paglaum sa mga masunod nga henerasyon sang mga atleta.

Jun 24, 2026 14:52:06

natapos, ang inspirasyon nga iya ginbilin magapadayon nga magahatag sang paglaum sa mga masunod nga henerasyon sang mga atleta.

As family and friends gather today to lay him to rest, we join them in prayer and gratitude for a life that, though brief, touched so many and inspired even more.

May he rest in peace. 🕊️

Investigators have uncovered reported family issues involving the 14-year-old suspect or children in conflict with the law (CICL) in the fatal shooting at San Jose National High School in Tacloban City.

PLtCol. Analiza Armeza, PIO chief of Police Regional Office 8, told ABS-CBN News that investigators found the 14-year-old did not come from a broken family, contrary to some earlier information.

Instead, the investigation uncovered reports of an unhealthy home environment, with family members allegedly frequently arguing.

"During the investigation, it was found out na hindi broken family itong dalawang CICL. However, sa isang CICL, there is information na may hindi magandang samahan within the family," Armeza said. | via Francis Orcio, ABS-CBN News

FALCIS, INIUUGNAY SA "DDS" ANG UMANO'Y SOURCE NG BARIL SA TACLOBAN SHOOT!NG

Naglabas ng pahayag si Atty. Jesus Falcis kaugnay ng madugong pamamaril sa isang paaralan sa Tacloban City.

Sa kanyang social media post, binanggit ni Falcis ang umano'y kaugnayan ng pulis na tita ng isa sa mga sangkot sa insidente sa mga tagasuporta ng mga Duterte.

Ayon kay Falcis, "Yung pulis na tita nung bata na source ng baril, DDS."

Ang pahayag ay bahagi ng kanyang reaksyon sa nagpapatuloy na usapin kaugnay ng Tacloban shooting, na ikinasawi ng ilang estudyante at ikinasugat ng iba pa.

Wala namang inilahad na karagdagang ebidensya si Falcis upang patunayan ang naturang pahayag.

Remembering PNoy: A Selfless Leader and Public Servant

One of my regrets in life is that I was not able to talk to PNoy more after his term ended because of the circumstances beyond my control.

I was unjustly detained in 2017 based on trumped-up charges filed against me by the Duterte administration. Although he was able to visit me several times, our time to catch up was very limited. Alam ng mga nakakakilala kay PNoy na kulang na kulang ang ilang oras sa mga kwento at jokes pa lang nya.

I was still in detention when PNoy died in 2021. It was deeply saddening to have lost a great leader and dear friend. What made it even more heartbreaking was that I was not able to attend his wake to pay my final respects.

Today is even more meaningful as I also remember that exactly two years ago, I was finally cleared of all the bogus charges against me. Hindi ko man sya personal nang mapapasalamatan, pero kasama lagi sa aking dasal at pag-alala sa kanya ang lubos kong pasasalamat sa pagbibigay nya ng lakas at pagpaparamdam sa akin noon na hindi ako

2026-06-24 15:18:29

His exemplary leadership and enduring legacy will forever remain a source of inspiration and strength.

Maraming pwedeng masabi tungkol kay PNoy, pero maaari ko itong maibuod sa pagiging mabuti, kwela, simple, mapagmalasakit at higit sa lahat, pagiging tapat niyang lider na inalay ang sarili para magsilbi sa mga Pilipino at pahalagahan ang interes ng Pilipinas.

He stood firm in serving Filipinos with honesty and accountability, and he was unwavering in his loyalty to, and love for our country.

Pinangunahan nya ang paglilingkod hindi lang sa pagbabawal ng wangwang, hindi lang sa hindi nya pagnanakaw, kundi pati na sa pagpapanagot sa mga tiwali – gaano man ka-impluwensya o kataas ang katungkulan.

Yan din ang ipinakita nyang tapang at paninindigan sa pagtatanggol sa ating soberanya at teritoryo, kahit dambuhalang bansa man ang ating nakabangga.

Sa harap man ng Gabinete o ng kanyang mga staff, sa mga kwentuhan at mga pag-uusap na lingid sa publiko o sa media, makikita't mararamdaman mo kung gaano katotoo ang kanyang puso sa pagsisikap na maipatupad ang positibong pagbabago, para "iwan ang Pilipinas na di hamak nasa mas magandang kalagayan tnan."

Salamat, PNoy. Itutuloy namin ang laban na buong puso, buong lakas, buong sigasig, buong katapatan at buong buhay mong itinaguyod para sa ating bayan at mga kababayan.

We miss you, Sir...

"BAKIT KAYO SUMUSUPORTA SA MGA DUTERTE?" - ABOGADO MAY DIRETSAHANG TANONG SA MGA DDS

Naglabas ng matapang na pahayag si Atty. Race del Rosario kaugnay ng nangyaring pamamar!l sa Tacloban City na ikinasawi ng ilang kabataan.

Sa isang social media post, direkta niyang tinanong ang mga tagasuporta ng kampo ni dating Pangulong Rodrigo Duterte kung paano nila tinututulan ang karahasan habang patuloy na sinusuportahan ang mga Duterte.

“Kung ayaw niyo sa patay*n, bakit kayo sumusuporta sa mga Duterte?” ani Del Rosario.

Ang pahayag ay inilabas kasunod ng lumalawak na diskusyon sa social media tungkol sa insidente sa Tacloban, na nagbunsod ng sari-saring reaksyon mula sa publiko at mga personalidad sa pulitika.

Patuloy namang nahahati ang opinyon ng netizens sa naging komento ng abogado, kung saan may mga sumang-ayon sa kanyang pananaw habang mayroon ding kumontra at

Samantala, nagpapatuloy ang imbestigasyon ng mga awtoridad sa insidente habang nananawagan ang mga pamilya ng mga biktima ng hustisya at pananagutan.

Children as young as 9 years old are pushed to the cycle of committing crimes because of poverty. Without proper rehabilitation, they will not be able to escape.

Medyo mahaba po ito pero really worth the watch.

Pia “POGO in Action” Cayetano: Kung Hindi Ka Man Managot, Mag-upgrade Ka Naman ng Troll Farm

Pia, kung magtatago ka sa likod ng troll farm, baka naman puwedeng mag-invest ka nang konti? Ang dali-dali nilang mahuli—20 friends, generic profile pictures, at mga script na parang binuo ng AI na tinamad. Kung ‘yan ang depensa mo sa katotohanang ikaw ang principal sponsor at author ng batas na nagpaulan ng POGO sa Pilipinas, medyo hindi sulit ang bayad mo sa kanila.

Pero Hindi Ba POGO ay Noong Duterte Pa?

Oo, nag-ugat ito sa panahon ni Duterte, pero alam mo kung sino ang nagbigay ng legal na selyo para dito? Si Pia Cayetano.

Siya ang principal sponsor at author ng POGO tax law (RA 11590) noong 2021, na hindi lang basta nag-impose ng buwis kundi nagbigay ng legal recognition sa POGO mismo.

Kung hindi niya ito isinulong, POGO could have been declared illegal outright, at hindi na natin mararanasan ang kasalukuyang krimen, money laundering, at pabahay crisis.

2026-06-24 15:28:30 an i-tax kasi nandito na rin lang sila.” Pero sa halip na i-phase out, pinatibay niya ang legalidad ng POGO operations sa Pilipinas.

Mas lalong lumakas ang false legitimacy ng POGO dahil sa batas niya—ibig sabihin, mas mahirap nang basta ipasara kasi may government recognition na.

POGO: Ang Regalo ni Pia Cayetano sa Pilipinas

Habang abala ang troll farm niya sa pagsasabing “fake news” ang lahat ng ito, heto ang mga hindi nila kayang burahin:

102 POGO-related crimes mula 2019-2022—kidnapping, torture, human trafficking, at money laundering!
4,355 biktima ng mga krimen na ito, at isa lang ang nauwi sa hatol na guilty.

Pagtaas ng rentang pabahay hanggang 30%, dahil sa POGO influx na nagtulak sa maraming Pilipino na lumipat o mawalan ng tirahan.

Bilyun-bilyong pisong dirty money ang dumaan sa bansa gamit ang POGO bilang front para sa money laundering.
At sino ang utak ng batas na
2026-06-24 15:28:39 sa POGO? Si Pia Cayetano

Bilyun-bilyong pisong dirty money ang dumaan sa bansa gamit ang POGO bilang front para sa money laundering.
At sino ang utak ng batas na nagbigay-lisensya sa POGO? Si Pia Cayetano mismo.

Pero Ang Mas Matindi? Yung Troll Farm Mo, Pia.

Ang mga depensa ng mga ito ay parang sinulat sa index card tapos pinasa-pasa na lang:

"Huwag niyong siraan si Sen. Pia!" – Hindi namin siya sinisiraan, siya lang talaga may gawa nito.

"May due process naman ang POGO!" – Oo nga, at ang due process na 'yon ang nagtulak sa batas na siya mismo ang principal author at sponsor. So… anong point mo, bes?
"Alam namin ang magagandang hangarin ni Sen. Pia!" – Baka gusto niyong i-share sa lahat kung ano 'yon? Kasi so far, ang record niya sa POGO ay hindi very "Pinay in Action," kundi very "POGO in Action."

"Kahit anong paninira, suportado namin siya!" – Okay, at sino kayo? Mga profile na may default sunset photo, 53 friends, at walang ibang post?

Pia, kung hindi mo kayang ipaliwanag ang POGO fiasco mo, at kung hindi mo kayang harapin ang sarili mong papel sa pagpayaman ng mga sindikato sa Pilipinas, baka naman puwedeng ibang troll farm na lang ang kunin mo. 'Yung hindi mukhang group project na minadali isang oras bago ang deadline.

Sa Huli, Ano'ng Natutunan Natin?

Hindi mo pwedeng burahin ang katotohanan gamit ang trolls.
Hindi mo pwedeng pagtakpan ang epekto ng POGO gamit ang generic na depensa.

At lalong hindi mo pwedeng asahan na kakalimutan namin ang papel mo sa problemang ito.

Pia "POGO in Action" Cayetano, kung hindi mo man kayang sagutin ang mga tanong tungkol sa batas mong nagpamukhang sindikato hub ang Pilipinas, at least sagutin mo ito:

Bakit parang mas pinag-isipan pa ng trolls mo ang depensa nila kaysa sa batas na isinulong mo?

SI MIRIAM ANG NAGPANUKALANG ITAAS ANG MINIMUM AGE OF CRIMINAL RESPONSIBILITY

Senate records from the deliberations on what would eventually become the Juvenile Justice and Welfare Act of 2006 (Republic Act No. 9344) show that the original committee version co-sponsored by Sen. Kiko Pangilinan proposed a Minimum Age of Criminal Responsibility (MACR) of 12 years old, while the late Sen. Miriam Defensor Santiago later sought to raise it to 18.

During the period of individual amendments on Senate Bill No. 1402 on November 9, 2005, Defensor Santiago proposed exempting all children below 18 years old from criminal liability while allowing intervention, rehabilitation, and protection programs for minors. She also proposed separate treatment for minors accused of heinous offenses, arguing that young offenders should be diverted away from the formal criminal justice system whenever possible.

Defensor Santiago expressed concern that the bill's provisions would make children aged 16 and above criminally liable. She

Defensor Santiago expressed concern that the bill's provisions would make children aged 16 and above criminally liable. She argued that many juvenile offenders were themselves victims of dysfunctional family environments, manipulation by adults, or psychological problems. She maintained that rehabilitation, rather than punishment, should be the primary approach for minors.

The committee report had originally pegged the age of criminal responsibility at 12 years old, consistent with what was described as the average international standard. The committee later agreed to increase it to 15 years old after considering studies, including research commissioned by the Council for the Welfare of Children and conducted by the Pamantasan ng Lungsod ng Maynila, which indicated that the age of discernment in the Philippines was 15.

The committee also adopted a provision exempting children above 15 but below 18 years old from criminal liability if they did not act with discernment. Under the final version of the law, minors in that age bracket could only be held criminally liable if prosecutors proved that they acted with discernment.

The measure was eventually unanimously approved by Congress and signed into law

PRAYER IN HONOR OF THE SACRED HEART
-
Father, here I am. I know you are always with me. I place my heart in the Heart of your Son Jesus, who gives himself to us in the Eucharist each day. May your Holy Spirit strengthen me to live the Gospel in everything I do and say. For my part I give you this day -– all my prayers, works, joys, and sufferings -– all I am and possess. With Mary, mother of the Church, I pray for the mission of the Church, for all Apostles of Prayer, and for the intentions of the Pope this month. Amen

O Jesus, through the Immaculate Heart of Mary, I offer You my prayers, works, joys, and sufferings of this day in union with the Holy Sacrifice of the Mass throughout the world. I offer them for all the intentions of Your Sacred Heart: the salvation of souls, reparation for sin, and the reunion of all Christians. I offer them for the intentions of our bishops and of all Apostles of Prayer, and in particular for those recommended by our Holy Father this month.

The Philippine National Police released during the Malacañang press briefing on Tuesday, June 23, the initial results of its investigation into the school shooting in Tacloban City.

The PNP identified the suspects, alias Rod, 15, and alias Nash, 14, as children in conflict with the law.

Authorities recovered two firearms from them: a .38-caliber Armscor revolver owned by a security agency in Cebu City and a 9 mm Glock 17 issued to a policewoman assigned to Police Regional Office 8.

Authorities said the minors fired at least 34 bullets, resulting in 23 casualties. Three people were killed, 15 sustained gunshot wounds and five others suffered non-firearm-related injuries.

LIMA, June 24 (Reuters) - Conservative Keiko Fujimori gained an insurmountable lead in Peru's presidential runoff late on Tuesday, setting her on track to assume the presidency.

Fujimori, a four-time presidential hopeful and the daughter of former President Alberto Fujimori, now has 50.11% of the votes, putting her ahead of leftist rival Roberto Sanchez by 43,386 votes. There remain only 40,213 potential votes to be counted, according to data from Peru's ONPE electoral authority.

The Reuters Inside Track newsletter is your essential guide during the World Cup. Sign up here.

The electoral authority has yet to officially declare a winner and plans to do so in mid-July.

Fujimori's expected victory deepens Latin America's rightward shift, following outsider Abelardo De La Espriella's election in Colombia on Sunday. Voters concerned about crime have flocked to hardline candidates.

Earlier on Tuesday, Sanchez alleged that "fraud was underway", without providing evidence, and said he would refuse to recognize the results of the election, raising the prospect of a prolonged political crisis in Peru.

Jun 24, 2026 16:22:45

Sanchez had requested the annulment of thousands of votes cast abroad that mostly favored Fujimori, but Peru's national electoral jury rejected the request on Tuesday night.

The runoff results had been delayed by a review of contested ballots, the late arrival of ballots from abroad and the razor-thin difference between candidates.

Fujimori is set to inherit a country that has seen eight presidents in as many years and which is grappling with stark economic inequalities between the capital and rural regions as well as disillusionment with politicians.

Of the eight former presidents, none completed a full term. Three were impeached and one resigned after just six days. Four former presidents are currently in prison, and Fujimori's late father served 16 years over human rights abuses during his decade-long rule in the 1990s.

Fujimori, who previously distanced herself from her father's legacy, has leaned into it this election — casting herself as a strong leader best able to enforce order and stability as voters grapple with rising rates of extortion and murder.

‘WALANG GANITO NOONG PANAHON NI TATAY DIGONG’

Nagpahayag ng pagkabahala si dating presidential spokesperson at kilalang DDS na si Atty. Harry Roque matapos ang naganap na pamamaril sa isang paaralan sa Tacloban City na ikinasawi ng ilang katao.

Sa isang social media post, kinuwestiyon ni Roque kung bakit tila dumarami ang ganitong uri ng karahasan sa mga eskwelahan at ikinumpara ito sa panahon ng administrasyon ni dating Pangulong Rodrigo Duterte.

“Ano ba hong nangyayari sa ating mga eskwelahan? Bakit noong panahon naman ni Tatay Digong wala tayong nabalitaan na ganitong pangyayari na patayan sa loob ng ating mga classrooms?” ani Roque.

Binanggit din ni Roque ang mga panawagang muling suriin ang umiiral na batas hinggil sa minimum age of criminal responsibility, ngunit iginiit na hindi siya nakikilahok sa naturang debate.

“May mga nagsasabi na dapat sisihin ay yung Pangilinan law, yung ibinaba ang minimum age of criminal responsibility sa 15. Ayokong pumasok

"May mga nagsasabi na dapat sisihin ay yung Pangilinan law na itinaas ang minimum age of criminal responsibility sa 15. Ayokong pumasok sa debateng yan kasi hayaan na natin ang siyensya na magsabi," dagdag niya.

Patuloy namang pinag-uusapan ng publiko ang mga posibleng hakbang upang maiwasan ang mga kahalintulad na insidente sa mga paaralan at mapalakas ang seguridad ng mga mag-aaral.

MAS MARAMING KASO NG KABATAAN SA DUTERTE ADMIN?

Nagbigay ng matinding reaksiyon si Atty. Jesus Falcis sa usapin ng juvenile crime sa bansa, kasunod ng panawagang ibaba ang minimum age of criminal responsibility matapos ang pamamaril sa isang paaralan sa Tacloban City.

Sa isang social media post, iniuugnay ni Falcis ang pagtaas ng bilang ng mga kasong may kinalaman sa mga kabataan noong administrasyong Duterte sa umano'y impluwensiya ng marahas na retorika ng dating pangulo.

"From 10,000+ Juvenile Justice cases under PNoy to 28,000+ cases under Duterte to only around 5,000+ cases under BBM, Duterte's violent language and actions really influenced the youth to become as crazy as him. Deny pa more, mga DDS!" ani Falcis.

Patuloy namang pinagdedebatehan sa social media at iba't ibang sektor ang mga posibleng dahilan ng krimen na kinasasangkutan ng mga menor de edad, kabilang ang epekto ng mga polisiya, kapaligiran, at kultura sa lipunan.

RUN, HIDE, FIGHT
WHAT TO DO DURING AN ACTIVE SCHOOL SHOOTING?
Following the shooting at San Jose National High School on June 22, school personnel and students must be prepared to recognize potential threats and respond quickly before law enforcement arrives.
Here is a guide on what to do during an active shooting, according to the PNP.
RUN If there is an accessible path, use it.
Move away from the threat as quickly as possible
Evacuate regardless if others agree
Leave your belongings behind
HIDE If evacuation is not possible, find a secure place to hide and barricade your space.
Lock and secure doors
Create barriers to prevent or slow down the threat from getting to you
Remain out of sight and quiet - silence your phone
FIGHT As a last resort - and only when your life is in imminent danger - attempt to disrupt and/or incapacitate the active shooter.
Incorporate a distraction - throw items and yell loudly
Commit to you actions - be aggressive and use improvised weapons
Disarm the shooter - solicit help, there is strength

Because of the Tacloban shooting, the old argument has returned: do video games make children violent?

It is a fair question, but it becomes dangerous when people use it as a shortcut. Some studies suggest that violent games may increase aggressive thoughts or behavior in certain contexts. That should not be dismissed. But there is a difference between acknowledging a possible risk factor and dragging a game into the room as if it were the entire crime scene.

A child is not shaped by one screen alone. A child is shaped by family, school, peers, trauma, neglect, access to weapons, social isolation, bullying, poverty, online communities, and the adults who notice too late because it was easier to blame entertainment than confront the ecosystem that failed.

So let me offer the opposite anecdote.

The video game that affected me most did not make me violent.

Final Fantasy VII made me political.

I was young when I first saw Midgar. It was not just a city on a screen. It felt like a warning. A steel sky hanging over the poor. A machine with

Final Fantasy VII made me political.

I was young when I first saw Midgar. It was not just a city on a screen. It felt like a warning. A steel sky hanging over the poor. A machine with lights bright enough to look like progress from afar, but cold enough to cast whole communities into permanent shadow.

Above the plate, there was order. Neon lights. Corporate towers. Trains running on schedule. Men in suits speaking the language of efficiency, security, and national interest. Below the plate, there was rust, smoke, sickness, scrap metal, and people forced to build lives out of what the powerful had already used and thrown away.

The upper world had light, power, comfort, and the illusion of peace. The lower world had hunger, illness, abandonment, and people expected to be grateful for scraps from the same system that trapped them there.

At the center of it all was Shinra, a corporation so powerful it functioned like a state. It extracted energy from the planet, sold exploitation as development, controlled the media, commanded private armies, branded dissenters as threats, and treated environmental collapse as a public relations problem.

Jun 24, 2026 20:07:08

Even as a child, I understood the feeling before I understood the theory. Something was wrong with a world where the lights above were powered by the suffering below. Something was wrong with a city that called itself modern while burying its poorest people under metal, smoke, and official neglect.

I did not yet have the language for political economy. I did not know the terms oligarchy, state capture, extractive capitalism, propaganda, structural violence, or manufactured consent. But I understood the image before I understood the vocabulary.

Final Fantasy VII taught me that the villain is not always a monster.

Sometimes the villain is a boardroom.

Sometimes it is a press release.

Sometimes it is a government seal attached to private greed.

Sometimes it is a clean slogan hiding a dirty machine.

And the older I got in the Philippines, the harder it became not to recognize Midgar.

Jun 24, 2026 20:07:11

We also have a country of upper plates and lower sectors. Some people live protected by distance, title, wealth, and air-conditioning, while others are told to endure floods, hunger, contractual labor, broken public services, and recycled campaign promises. We also have politicians who speak in the language of the poor while designing systems that keep the poor useful, grateful, and replaceable.

We also have institutions that punish the noisy citizen faster than the powerful thief. We also have propaganda machines that can turn accountability into persecution, inquiry into destabilization, and public anger into an algorithmic product.

The names are different. The machinery is familiar.

A mayor smiling beside a flooded barangay. A senator preaching discipline while protecting impunity. A corporation donating relief goods with one hand while extracting public trust with the other. A troll page turning grief into content before the dead are even buried. A government office asking for obedience from citizens who cannot even get basic services without begging.

This is probably why I became Nutribun Republic.

Jun 24, 2026 20:07:14

Not because I wanted politics to become my

Not because I wanted politics to become my personality. Not because I enjoy waking up every day to argue with people whose entire worldview was assembled from TikTok captions, troll pages, and emotional damage. But because once you learn to ask who profits from a broken system, you cannot unlearn the question.

When public funds disappear, I see Shinra.

When disinformation protects the powerful, I see Shinra.

When corporations wrap extraction in corporate social responsibility, I see Shinra.

When politicians use the poor as campaign scenery but exclude them from power, I see the slums under the plate.

When people demand obedience from the oppressed but impunity for the powerful, I see the same architecture of control.

To be clear, Final Fantasy VII did not give me a political ideology fully formed. A video game is not a university, a party, a manifesto, or a substitute for reading history. But it gave me something earlier than ideology: moral suspicion.

It taught me to suspect power when it calls itself order.

It taught me to suspect wealth when it calls itself progress.

It taught me to suspect propaganda when it calls itself truth.

It taught me to suspect peace when only the comfortable are allowed to define it.

And it also taught me something activists need to remember: resistance is not automatically pure. The people fighting Shinra were wounded, angry, flawed, and sometimes wrong. They were not marble statues of righteousness. They were people carrying grief, guilt, rage, memory, and love through a world already on fire.

That matters. The story was not a simple fantasy of heroes versus villains. It was a story about what happens when institutions become so violent that even resistance begins carrying its own moral injuries.

That is a lesson, not an excuse.

So when people say video games corrupt children, my honest answer is: sometimes media can affect behavior, especially when a child is unguided, isolated, angry, or already vulnerable. But media does not act alone. A game is not a parent. A game is not a school. A game is not a gun. A game is not a state. A game is not a society that ignores warning signs until blood has already been spilled.

In my case, the game did not teach me to hurt people.

It taught me to read systems.

It taught me that poverty is often designed, not accidental.

It taught me that environmental destruction is political.

It taught me that propaganda is violence before the violence.

It taught me that the powerful rarely announce themselves as villains. They announce themselves as saviors, investors, reformers, protectors, patriots, and men of God.

Years later, that childhood suspicion grew up. It learned law, history, policy, class analysis, sarcasm, screenshots, citations, and Filipino humor.
